- Volunteering
- Playing Sports

Future Plans/Goals:

Pursue a certificate in Bible from Emmaus Bible College. Then do volunteer work full time.

Introduction (1 or 2 paragraphs to be read by someone else):

Lucas has always loved being active. When he was young He would spend hours playing outside, exploring and letting his imagination run wild. As He has gotten older he still love being active, but the activities have changed. When he was fourteen years old he started volunteering each summer at Kansas Bible Camp in Hutchinson, KS. Which taught the value of hard work and leadership. Upon graduation from high school Lucas enrolled at Washburn Institute of Technology, he quickly became involved with student organizations, one of which was SkillsUSA. He ran and got elected as a State Officer in the October 2014. He then participated in The Mid-America SkillsUSA Conference. There he learned how Skills USA had impacted so many people. He wanted to do more to make a difference in people's lives. So he ran for National Office and was elected. He now wants to do as much as he can to make an impact in peoples live through SkillsUSA.
