

**Tennessee  
College/Postsecondary  
SkillsUSA  
Bylaws  
Proposed Amendment Changes 2017**

**Amendment 1:** Move to Amend ARTICLE III–ORGANIZATION Section 8 from:

The ex officio members of SkillsUSA Tennessee Postsecondary Executive Council shall be the State Director of SkillsUSA Tennessee Postsecondary, Vice Chancellor and Assistant Vice Chancellor for the **Tennessee Colleges of Applied Technology**.

To read:

The ex officio members of SkillsUSA Tennessee Postsecondary Executive Council shall be the State Director of SkillsUSA Tennessee Postsecondary, Vice Chancellor and Assistant Vice Chancellor for the **Tennessee Board of Regents**.

Rational: This amendment covers only updating the bylaws to reflect our system changes there is no substantive change.

**Amendment 2:** Move to Amend ARTICLE VII - STATE EXECUTIVE COUNCIL Section 1 from:

The State Executive Council shall be comprised of the officers of SkillsUSA Tennessee Postsecondary with the State Director, the National Delegate Advisor, and all state officer local advisors serving as ex officio members. The officers shall be the President; Vice President; Secretary; Treasurer; Parliamentarian; Reporter and **Sargent at Arms**. There shall be a maximum of one state officer from any one local chapter. No member can be elected as a state officer more than once.

To read:

The State Executive Council shall be comprised of the officers of SkillsUSA Tennessee Postsecondary with the State Director, the National Delegate Advisor, and all state officer local advisors serving as ex officio members. The officers shall be the President; Vice President; Secretary; Treasurer; Parliamentarian; Reporter and **Historian**. There shall be a maximum of one state officer from any one local chapter. No member can be elected as a state officer more than once.

Rational: This amendment lines up our state officer titles with the officer titles in the SkillsUSA Leadership Handbook. This will allow each officer to have an officer pin that corresponds with their state officer position.
