Foreword

To assist SkillsUSA chapter advisors and members in research and preparation for state officer candidacy, we have created this SkillsUSA Tennessee Postsecondary State Officer Program Guide.

This guide is an overview of the state officer program from beginning (candidacy) to end (completion of year of service.) Each section of the state officer program guide provides information for advisors, members, parents, spouses, etc., in understanding the expectations of the job description, candidate events onsite at the SkillsUSA State Leadership and Skills Conference, as well as qualifications, rules and schedules. In addition, we have provided preparation suggestions and resources for state officer candidates.

We feel an all-encompassing resource would aid our stakeholders in better understanding the state officer selection process as well as an insight into the goals and objectives of the state officer program and expectations of the state officers once they are elected.

During the Tennessee Leadership Training Institute each year, SkillsUSA delegates from across the state elect nine of their peers to serve as student leaders for the organization – state officers. Including President, Regional Vice Presidents, Secretary, Treasurer, Historian, Reporter, and Parliamentarian. These student leaders serve in a variety of roles throughout their year of service. As leaders, they serve as communicators, advocates and facilitators. The state officer team leads both state conferences: the Tennessee Leadership Training Institute and the SkillsUSA State Leadership and Skills Conference. They also serve local chapters and teach members skills from the SkillsUSA Framework that will help them become career-ready. Additionally, they serve as teammates to one another as they build relationships with members across the nation.

Being a state officer is the ultimate personal growth and student leadership experience within SkillsUSA. The overall program focuses on five key essential elements of the SkillsUSA Framework: responsibility, communication, teamwork, leadership and professional development. The skills learned through the state officer program will help these student leaders not only be successful in serving the organization, but also throughout their lives and future careers.

Section 1: State Officer Job Description

Roles and Responsibilities

The primary role of a SkillsUSA state officer is to serve SkillsUSA at the local and state level to support our organization's mission to empower students to become world-class leaders, workers and responsible American citizens.

JOB DESCRIPTION

Being a state officer means representing over 350,000 SkillsUSA student members and the principles and purposes of our organization at all times. In this role, an officer will be communicating key organization information along with promoting career and technical education. As a student leader, each officer must be clear on his or her priorities, able to manage a variety of tasks and projects, and use effective time and stress-management strategies.

Officers should anticipate spending one to three hours per week completing other SkillsUSA assignments, activities, pre-work, webinars, growth plans, mentor meetings, etc. Through this program, state officers are challenged to risk boldly, seek improvement, crave feedback and support honestly. State officers have several opportunities to risk boldly and step outside of their comfort zone within a supportive environment.

During the program, students are taught advanced communication and facilitation strategies that they are asked to implement within their work. State officers must have a desire to improve and be open to feedback. While serving on the team, state officers must collaborate with their fellow state officers and support them sincerely. Finally, state officers must understand the value of their current work and the future impact. Officers may have meetings or presentations with business and industry, government officials and educational leaders, all which shape the future of SkillsUSA as well as career and technical education.

Based on these results, the students will establish three SMART goals to accomplish during their year of service, with at least one being focused on growth within the five key Essential Elements of the state officer program. Feedback on growth plan will take place throughout the officer's year of service.

Scheduling of State Officers

During the state officers' year of service, they are eligible for additional opportunities such as providing a welcome and facilitating workshops at state fall and leadership conferences, representing SkillsUSA at business and industry events and attending business conferences. These opportunities give the state officer's time to demonstrate the skills they learned during their training, develop their professional and personal networks, and expand their role in supporting the SkillsUSA mission. These opportunities may require preparation time, and the opportunities themselves may require extra days off from school. Often, these extra events are a rich opportunity for personal and professional growth. Between the required events and these additional optional opportunities, students may find it difficult to maintain committed involvement in extracurricular activities such as other organizations or sports, while also keeping up with their schoolwork and CTE program. Though it is possible to maintain other responsibilities, elected students, their parents, school leadership and instructors should understand that serving as a state officer is a substantial commitment.
